

SEND Policy 2014

Agreed at Strategies Committee November 2014

The Special Education Needs and Disabilities (SEND) policy was created by the Special Educational Needs Co-ordinator (SENCo) in liaison with the senior management team, SEND governor, all staff and parents of pupils with SEND. It reflects the SEND Code of Practice 2014. The SENCo is contactable on 01329 833141 or senco@st-john-pri.hants.sch.uk and is part of the senior management team.

Every teacher is a teacher of every child including those with SEND.

At St John the Baptist Primary School we aim to raise the aspirations of and expectations for all children with SEND. We focus on outcomes for children and not just hours of support.

Aims

- To be an inclusive school that respects diversity and makes reasonable adjustments to ensure disabled children and those with medical conditions are not at a substantial disadvantage
- To encourage pupil and parental involvement in assessment and support for SEND
- To identify pupils with SEND, provide for and review their needs
- To ensure access for pupils with SEND to high quality teaching within a broad, balanced, relevant and differentiated curriculum so that they can reach their full potential
- To ensure all pupils with SEND feel valued and have a positive self-image
- To foster close co-operation between all agencies concerned for a multi-disciplinary approach
- To provide consultation between preschools and any other schools regarding transition arrangements
- To operate a whole pupil, whole school approach to the management and provision of support for SEND

Objectives

- To identify and provide for children who have SEND and additional needs
- To work within the guidance provided in the SEND Code of Practice 2014
- To provide a SENCo who will work within Hampshire Inclusion ideals
- To provide support and advice for all staff working with children with SEND

Identifying SEND

We identify the needs of children by considering the needs of the whole child which includes SEND. SEND is defined as provision that is additional to and / or different from that of the other children.

High quality teaching is provided for all children by their Class Teacher. This is seen as the first step in responding to children who have / may have SEND. The school regularly reviews the quality of teaching for all children.

Concerns may be raised if a child is not making adequate progress, despite high quality teaching targeted at their area of weakness. The Class Teacher, working with the SENCo will assess whether the child has a SEND by establishing a clear analysis of the child's needs and then discuss with parents. This will be done by gathering information about the child's progress in any area of their development in school alongside national data and expectations of progress. The views of parents and the child will be taken into account. For higher levels of need, advice from external support services may be required.

Once a potential SEND is identified, four types of action are taken to put effective support in place. These actions form part of a cycle through which earlier decisions and actions are revisited, refined and revised with growing understanding of the child's needs and of what supports him/her in making good progress and securing good outcomes. This is known as the graduated approach which comprises of assess, plan, do, and review. The child's needs are firstly assessed, a plan of action is decided upon, the intervention/action is carried out and this is in turn reviewed.

If it is decided to put a child on the SEND register parents will be informed by the Class Teacher. Parents will be consulted at least termly through a meeting to discuss their child's progress.

Managing needs of children on SEND register

Individual Education Plans (IEP's)/ Person Centred Plans are used to show the needs that have been identified and the outcomes to be achieved within an agreed time frame. The class teacher will evidence progress and review the plans at least termly, supported by the SENCo.

The majority of children on the SEND register will receive one to one intervention programmes daily. However children with more significant needs may receive more support in class. This is decided on a needs basis, looking at progress and access to the curriculum, by the Class Teacher, SENCo and Head Teacher.

If we are concerned about a child we may decide to contact outside agencies for advice or support. Parents will be consulted before such advice / support is sought. Programmes suggested will be carried out or advice given will be acted upon.

Process for exiting the SEND register

If a child makes good progress and is no longer working at a level substantially below that of their peers or his/her needs change a decision may be made to take a child off the SEND register. The Class Teacher, supported by the SENCo, will discuss with the parents and child reason for making this decision.

Supporting children and families

We have an open door policy for all parents who are welcome to come in or phone regarding any concerns. We will endeavour to speak to parents as soon as possible, teaching commitments permitting. Further information regarding how the school supports children and their families, including contacting external agencies that can provide advice and support, can be found in the SEND Information Report in the parents section of the school website. There is a direct link from the school website to the Local Authority 'Local Offer'.

Children with SEND may need arrangements to access tests and assessments. We will check with guidelines and provide arrangements such as more frequent breaks, a quiet room etc. as required. The Class Teacher / Year group co-ordinator is responsible for these arrangements.

Our admissions policy takes account of all relevant legislation including that on disability, together with all relevant regulations and the School Admissions Code (published by DfE in 2012). For the normal admissions round, all on time preferences will be considered in accordance with the

admissions criteria. If the school is oversubscribed places will be offered in priority according to the admissions criteria. Looked after children or children who were previously looked after will rank first in priority. Children or families who have a serious medical, physical or psychological condition which makes it essential that the child attends our school are ranked second in priority. The school will admit any child whose final statement of SEN / EHCP names the school.

The Admissions Policy is available in the parents section of the school website.

Class teachers and the SENCo liaise with pre-schools regarding any particular needs or provision for children starting school. Details concerning any children with statements, Education Health and Care Plans (EHCP's) or Inclusion Partnership Agreements (IPA's) will be passed to relevant staff or the whole school as required.

The SENCo and class teachers also liaise with the inclusion manager at Swanmore College, any other primary or secondary schools or special units to discuss the needs and provision for any child transferring to them. The SENCo of the secondary school will be invited to the Year 5 annual review of any child with a statement, EHCP or IPA in order to facilitate additional visits if required.

The Head Teacher and SENCo also liaise with other schools in the Swanmore pyramid to share resources and expertise and to provide mutual support.

Supporting children with medical conditions

We recognise that children with medical conditions should be properly supported so that they have full access to education, including school trips and physical education. Some children with medical conditions may be disabled and where this is the case the school will comply with its duties under the Equality Act 2010.

Some may also have SEND and may have a statement or an EHCP which brings together health and social care needs as well as their special educational provision and the SEND Code of Practice 2014 is followed.

In school children with medical conditions have Individual Health Plans (IHP's) describing their condition, daily care needs and action to take in an emergency. The School Nurse liaises with school regarding IHP's which are checked with parents. Parents also sign forms regarding any medication that is required by a child.

The School Nurse and other agencies provide training about medication and first aid when requested.

An Administrative Assistant is responsible for checking equipment is labelled and up to date. For more information the Medical Conditions Policy is available in the parents section of the school website.

Monitoring and evaluation of SEND

At school we regularly and carefully monitor and evaluate the quality of provision we offer to all children. We take into account the views of parents, children and all staff. We look at children's needs, progress made and access to the curriculum. The evaluation and monitoring arrangements promote an active process of continual review and improvement of provision for all children.

Training and resources

SEND is funded mainly from the school budget. However some children with more significant needs receive additional funding and may have a statement, an EHCP or an IPA.

The training needs of staff are reviewed according to their experience and the needs of children with SEND currently in school or due to attend. If we know a child has a particular need that we have little or no experience of we will seek training, support and advice prior to their start. We also contact outside agencies for training needs as and when required.

All teachers and support staff undertake induction on taking up the post and this includes a meeting with the SENCo to explain the systems and structures in place around the school's SEND provision and practice and to discuss the needs of individual children.

The SENCo regularly attends the local pyramid SENCo circle meetings and SEND briefing sessions to keep up to date with local and national updates in SEND.

Roles and responsibilities

The SENCo's key responsibilities include:

- Overseeing the day to day operation of the school's SEND policy
- Co-ordinating provision for children with SEND
- Liaising with the relevant designated teacher where a looked after pupil has SEND
- Advising on a graduated approach to providing SEND support
- Liaising with parents of pupils with SEND
- Liaising with early years providers, other schools and external agencies
- Liaising with potential next providers of education to ensure a young person and their parents are informed about options and a smooth transition is planned
- Working with the Headteacher and school governors to ensure that the school meets its responsibilities under the Equality Act (2010) with regard to reasonable adjustments and access arrangements
- Ensuring that the school keeps the records of all children with SEND up to date
- Providing professional guidance to colleagues
- The SENCo will work alongside and support the Class Teacher

The Class Teachers responsibilities include:

- High quality teaching, differentiated for individual pupils, as the first step in responding to SEND
- Analysing the child's needs and working with a child with SEND daily, retaining this responsibility even when the child is following group or one-to-one interventions away from the classroom
- Working closely with any support or specialist staff to plan and assessing the impact on interventions and how they link to classroom teaching.
- Notifying the parents that their child has a SEND
- Revising the support in light of the child's progress and development, deciding on any changes to support and outcomes in consultation with the parent and child
- Leading the termly meeting to review progress and enabling parents to share their concerns and agree their aspirations for the child

Learning Support Assistants (LSA's) have a responsibility to support children with SEND by

- Attending to their personal needs
- Helping them use equipment
- Dealing with their behaviour and SEND issues in conjunction with the Class Teacher

The line manager for LSA's is the SENCo.

The SEND governor and the governing body have a responsibility to

- Ensure all pupil's SEND are met
- Have regard for the Code of Practice

- Ensure school's SEND policy is reviewed
- Ensure that appropriate funds and resources are allocated to SEND

The designated teachers with specific responsibility for safeguarding are the Head Teacher and their Assistant CPLO.

The Headteacher is responsible for managing funding for pupil premium and looked after children.

The SENCo is responsible for managing the schools responsibility for meeting the medical needs of children.

Storing and managing information

We store documents in line with Hampshire County Council policy.

We have a clear and explicit Code of Conduct policy in school, which covers confidentiality. This ensures good practice throughout the school. The policy applies to all teaching and non-teaching staff employed by the school, visiting staff, parent helpers, work experience students and staff from external agencies e.g. school nurse. School staff need to be clear with children that unconditional confidentiality cannot be offered when there is a child protection issue as we are under a duty to inform the Child Protection / Safeguarding Liaison Officer who may have to involve other agencies.

We have an Emotional Literacy Support Assistant in school to whom children may talk about issues that are troubling them in order to help them through their situation. Information will be shared with appropriate people such as the class teacher on a needs to know basis. This school recognises that there may be family issues which might affect a child and which a family will only disclose to us if they can be sure the information will be treated confidentially. We will respect the wishes of the family and where it is felt necessary to share the information given to us, this will be discussed with the parents first unless a child is considered to be at immediate risk and / or there is an overriding child protection issue.

Reviewing the policy

The SEND policy will be reviewed annually.

Accessibility

In line with the SEN and Disability Act 2000 and the Equalities Act 2010 – advice for school 2013, we have an Accessibility Policy to ensure disabled children are not treated less favourably for a reason related to their disability, to make reasonable adjustments for disabled children, so that they are not at a substantial disadvantage and to plan to increase access to education for disabled children. We have high ambitions for disabled children and expect them to participate and achieve in every aspect of school life. We will set suitable learning challenges, respond to children's diverse needs and overcome potential barriers to learning and assessment. We welcome all children irrespective of race, colour, creed or impairment. An Accessibility Action Plan is included in the policy which is updated annually. The action plan outlines how the requirements of the policy will be met.

The Accessibility Policy is available in the parents section of the school website.

Dealing with SEND complaints

We endeavour to resolve any problems immediately. The first point of call is the Class Teacher, then the SENCo or Head Teacher.

The complaints procedure can be found in the parents section of the school website.

Bullying

We have zero tolerance of bullying of any child at school including vulnerable learners.

The School Bullying Policy is available in the parents section of the school website.

Resilience is one of the school aims for being a successful learner. We build resilience into learning for all children.
